

**ASSEMBLY INSTRUCTIONS EAN code 4041104093662****General safety instructions for product use and operation****Caution:**

1. Read the following instruction thoroughly before unpacking the luminary and starting its installation.  
**Important! Read this instruction carefully. Retain the operating instruction for later use.**  
**This product is intended for use in a private household, not for commercial or industrial use!**
2. PLS note that all kind of work within electrical appliances shall be proceeded only by a professional electrician.
3. PLS follow the instruction and keep it for the future needs.
4. Whenever you give the luminary product to the third person always include the corresponding instruction.
5. The product is only intended/allowed for connection to 220-240V~ 50Hz AC Voltage and only with the light sources as indicated in the part called „Technical Parameters“
6. Avoid any damaging or clamping of cable. Cables must be laid in such a way that they do not run over sharp edges and are not crushed or subjected to tensile loads.
7. Please do not look directly into light while switching on or operating the illuminator to avoid eye damage.
8. If there are any electrical components or parts broken, have it replaced or repaired only by an authorized electrician.
9. This luminary is intended only for an indoor installation (IP20).  
-not intended to be installed in the surrounding where the explosion and/or fire hazard exists  
-keep the luminary far away from easy flammable substances and/ or objects.  
- do not expose the luminary towards strong impact of warmth, humidity and/ or dust.
10. The luminaire is designed according to protection class II and does not require a protective connection conductor.

**Warning:** Before you start any kind of work within the electrical appliance, you must cut off the current supply at first. Pull out the fuses or switch the current off assuring nobody else switch it back on. Danger of electrical shock!!

**Cleaning and Maintenance.**

- 1.PLS cut off the electrical supply and let the luminary get completely cooled before you start cleaning it.
- 2.PLS clean the luminary with a dry soft cloth.

**Repairs**

**Warning:** PLS note that all kind of work within electrical appliances shall be proceeded only by an authorized electrician.

**Technical Parameters:**

230V~ 50Hz, 1 x LED (whole lamp) 49Watt, 2300lm-2700K-6500K

230V~ 50Hz, 1 x LED-Board (only) 44Watt, 6000lm-2700K-6500K

**This product contains a light source of energy efficiency class <E>.**

Replaceable (LED only) light source by a professional.

Replaceable control gear by a professional.

The CE-conformity declaration to the product is available on our homepage: [www-h-p-i.de](http://www-h-p-i.de) under point "Produktinfo".

**Assembly instruction**

PLS remove any packaging material from the product and its parts.

PLS put the all the delivered parts together step by step, following below given drawing and text.

**Waste Disposal of the electrical appliance!**

If you want to get rid of the product one day, be aware that many components are made of valuable raw materials and can be recycled and reused. Never dispose any electrical appliance to the dustbin, but bring it to your Electrical Waste Collecting Plant.

1-3 Assemble the individual frames onto the entire unit.

4-5 Drill 2 holes in the ceiling with a drill to fit the holes in the bracket and attach the dowels. Attach the bracket to the ceiling by tightening the screws.

6 Connection of the cables: Connect the power supply to the terminal strip according to the markings L: live, N: neutral.

7-8 Align the mounting holes with the screws in the bracket. Assemble the lamp to the bracket.

## Instrction

	Turn on with memory fuction and match / reset code function ( cut off the power supply and wait for 10S then turn on the power supply, long press the "ON" button within 30s, the lamp will flashes 3 times, Indicates successful code matching. And the lamp will flashes 6 times,indicating that clean code is success.)
	Turn off the lamp
	Brightness increase key
	Brightness decrease key
	Colour temperature decrease key
	Colour temperature increase key
	Night light mode key – if press this key, the light turns to 10% of max brightness
	Segmented dimming key, short press this key to enter segmented dimming mode (Three dimming modes: 100% ->50% ->25%)
	Delay turn off button, short press this button to enter delay turn off mode. (The lamp flashes briefly and completely turns off the output after a delay of 30 minutes). When entering delay mode, press other buttons to clear the delay shutdown mode
	Color temperature switch key—4000K-6000K-3000K

**Connect to the power supply in accordance with national regulations.**

**Simplified EU Declaration of Conformity**

Hereby, Home Product Import GmbH declares that the radio installation type LED ceiling lamp,

article number: 180.004962, EAN code: 4041104093662

complies with Directive 2014/53/EU.

The CE marking indicates that this product meets the requirements of all EU directives applicable to this product.

The full text of the EU declaration of conformity is available at the following internet address.

**Explaining the symbols**

 Protection class I – the appliance must have their chassis connected to electrical earth by a separate earth conductor coloured green/yellow in most countries

 Protection class II or double insulated electrical appliance is one which has been designed in such a way that it does not require a safety connection to electrical earth (ground)

 Protection class III - A Class III appliance is designed to be supplied from a separated/safety extra-low voltage (SELV) power source

 Required minimal distance between the light source and the illuminated surface (in meter) to be kept

 suitable only for low-pressure halogen lamps

 only for indoor installation

 suitable for outdoor installation (splash proof)

 Product fulfils all the valid European directives

 At the end of its lifecycle, this product must not be disposed of with your normal waste, but instead must be returned to a recycling facility for electric and electronic devices
